

Parent Information Sheet

Year 2 - Man on the Moon

Bob has a very special job - looking after the moon. He knows almost everything about it, but there's one thing he is blissfully unaware of...aliens!

Aspiration:

Children will think about how they can achieve their Year 2 goals by setting themselves targets.

Resilience:

As a year group we will be thinking about how we can challenge ourselves every day.

Commitment:

Children will take ownership of their topic by designing and making their own rockets.

Harmony:

We will discuss ways in which we can make sure everybody is included and continue to make new children feel welcome.

Term Dates: November 5th - December 21st (7 weeks)

Topic Challenge Home Learning

Just a few ideas...

Visit Wynyard planetarium in Billingham to observe the stars in the night sky.

Have a walk to the Dorman museum to see their Space exhibition.

As Historians:

We will be learning about the lives of significant historical figures e.g. Tim Peake (the first British man in Space).

As Artists:

We will be designing and creating our own rockets and will be learning to stitch to make Christmas decorations!

As Scientists:

We will be learning about different materials and their uses and comparing how things move on a variety of surfaces.

Useful Information:

PE will be on a Wednesday. We may have extra PE sessions in the week, so we ask that PE kits are brought into school during the first week of term and left here till the end of term.
